MINISTRY OF COMMERCE

PUBLIC NOTICES

IMPORT TRADE CONTROL

New Delhi, the 25th May 1968

SUBJECT:—*Import of raw materials, components and spares by actual users in the small scale sector during April 1968—March 1969—Modes of financing.*

No. 89-ITC(PN)68.—Attention is invited to the policy for grant of import licences for raw materials, components and spares to actual users in the small scale sector, as contained in the Import Trade Control Policy (Red Book—Vol. I) for the period April 1968—March 1969. This Public Notice indicates broadly the modes of financing which may be used by the licensing authorities while issuing import licences to small scale units for raw materials, components and spares in respect of applications received under the import policy for the period April 1968—March 1969.

2. It has been provided in paragraph 37, 38 and 39 of section I of the Import Trade Control Policy (Red Book—Vol. I) for the period April 1968—March 1969 that imports will be allowed from preferred sources of supply to the units whose

export performance during 1967-68 in relation to their production during the same period has been upto the extent indicated in the said paragraphs.

3. The modes of financing to be adopted by the licensing authorities in the case of units eligible to preferred sources of supply, in terms of the provisions referred to in paragraph 2 above, will be announced separately.

4. In the case of units which are not eligible to preferred sources of supply in terms of the provisions referred to in paragraph 2 above, the applications for import licences will be dealt with as under:—

(a) The import entitlement of the applicant unit will be divided into three equal parts, each earmarked for (i) free foreign exchange, (ii) U.S. AID, and (iii) Rupee payment area. The import licence against U.S. AID will be issued to the applicant only if its value is not less than the prescribed minimum value of Rs. 41,250/-.

(b) It will be open to the applicant to ask for his entitlement under U.S. AID to be added to his entitlement for the Rupee Payment Area, and *vice versa*.

(c) It will also be open to the applicant to claim in lieu of his entitlement in U.S. AID or Rupee Payment Area a licence against free foreign exchange of a value equal to 25 per cent of such entitlement.

(d) In cases where the entitlement under U.S. AID after taking into account conversion, if any, under (b) above comes to less than the prescribed minimum value of Rs. 41,250/-, the applicant can nominate an agent or an indenting house or another actual user for receiving the licence under U.S. AID on his behalf as well as of others. In such cases, import licences will be given to the nominee to enable him to pool the requirements of various applicants for importing goods from U.S.A. under U.S. AID. The nominee should be the person or firm situated within the territorial jurisdiction of the licensing authority concerned.

5. Even after the issue of the licence, it will be open to a licensee to ask within 3 months of date of its issue for conversion of import licences in the manner indicated in (b) and (c) of the proceeding paragraph.

6. Import licences issued to a unit under the various modes of financing indicated in the preceding paragraphs, will have a common list of the goods permitted for import. If the list includes an item licensable to actual users on restricted basis in terms of the Import Trade Control Policy (Red Book, Vol. I) for April 1968—March 1969, such item will be subject to a face value restrictions to be indicated in the list. The extent of such face value restriction will be 10 per cent of the face value of the licence or Rs. 5,000/- whichever is less in respect of each restricted item, except that in the case of items appearing in the Appendix to this Public Notice, the extent of face value restriction will be as indicated against each item in the Appendix. Also, components required by an actual user engaged in a priority industry, for the assembly or making of a finished product, will together bear a face value restriction within the overall value of the licence equal to 20 per cent of the value of production certified by the Chartered Accountant in the certificate required to be submitted along with the application in accordance with paragraph 33 of Section I of Import Trade Control Policy (Red Book—Volume —I) for April 1968—March 1969. If an actual user seeks to import such restricted items of raw materials or components against his import entitlement for a particular mode of financing only, he should indicate in his import application, such items, their value and the particular mode of financing against which the applicant proposes to import. In such cases, the licensing authority will consider allowing import of such items against the particular mode of financing indicated by the applicant, with suitable changes in the licences issued under other modes of financing.

7. It has been provided in paragraph 4 above that an actual user whose import entitlement under U.S. AID is less than Rs. 41,250/-, can nominate an agent or indenting house or another actual user to receive an import licence on his behalf. Such actual user should furnish an undertaking, on a plain paper, to the licensing authority, to the effect that he shall receive the imported goods from the nominee and use them in his factory. On receipt of the undertaking, the licensing authority will inform the applicant that he has been permitted to obtain import licence in the name of the nominee in question for import from U.S.A. under U.S. AID. On the basis of such nominations, as accepted by the licensing authority, the nominee can make request for the grant of a bulk licence

in his name. Such request should be made on a plain paper, accompanied by (i) a list indicating the names of actual users on whose behalf the import is sought to be made, and the value of the goods in each case, and (ii) copies of letters issued by the licensing authority to the actual users concerned, permitting them to import the goods through the nominee. The following conditions shall be imposed on the licence:—

"This licence has been issued on behalf of the applicants whose names appear in the attached list. The licensee shall import the goods and distribute them to these applicants for the value indicated against each. The goods so distributed will be subject to the usual actual user conditions."

8. The provisions of this Public Notice will also apply to the non-SSI units looked after by the State Directors of Industries or State Drugs Controller or State Directors of Fisheries or Agricultural Marketing Adviser, Nagpur.

Annexure to Ministry of Commerce Public Notice No. 89-ITC (PN)/68 dated the 25th May, 1968.
